

Dr. Angela Amoresano

Dr. Angela Amoresano got her degree in Chemistry at the University of Naples in 1994.

1995 - Consiglio Nazionale delle Ricerche fellow, Servizio di Spettrometria di Massa CNR-Università di Napoli "Federico II";

1996 - Istituto Ricerche di Biologia Molecolare (IRBM) "P. Angeletti" fellow, Servizio di Spettrometria di Massa CNR-Università di Napoli "Federico II";

1997 - Università degli Studi di Napoli "Federico II" fellow, Servizio di Spettrometria di Massa CNR-Università di Napoli "Federico II";

1997 - 1999 "Collaboratore scientifico, "Biotecnologie Mediche ed Agroalimentari" del PST dell'Area Metropolitana di Napoli, CEINGE Biotecnologie Avanzate s.c.a.r.l. ;

1999-2000 "Assegnista di ricerca", Department of Organic Chemistry and Biochemistry, University of Napoli;

2000-2003 PHD in Scienze Chimiche, Department of Organic Chemistry and Biochemistry, University of Napoli, Prof. P. Pucci;

2001 – Visiting scientist at Biochemistry and Engineering Laboratory, Prof. J. Van Beeumen, Gent University, Belgium.

1/11/2001-at present - Assistant Professor at the Department of Organic Chemistry and Biochemistry, Faculty of Biotechnological Sciences, University of Napoli;

2001-at present - Temporary Professor of Bioanalytical Chemistry, Biotechnological Sciences, University of Napoli "Federico II"

2006-2014- Temporary Professor of protein Chemistry and Proteomics, Biotechnological Sciences, University of Napoli "Federico II".

Her scientific activity has been mainly devoted to the structural characterization of natural and recombinant proteins, including glycoproteins, and to expression and functional proteomics using integrated strategies that combine protein chemistry procedures with mass spectrometric methodologies. Moreover she is involved in the characterization of contaminants and pollutants even in trace in different biological and environmental matrices. Author of 109 publications in international journals (peer review) available on PubMed. The impact and the quality of publications are documented by the Impact factor of journals, number of citations, and participation in several national and international conferences.

She has been recipient of research grants from national institutions (MIUR, Minister of Health).

She was consultant and collaborator of public and private enterprises in the biotechnological and pharmaceutical fields (Unirelab, Menarini).

2007-at present: Responsible of the Environmental Analytical Chemistry facility at the Chemical Sciences Department, University of Napoli "Federico II" .
